

**LEADERSHIP
OGLETHORPE**

2018

OCTOBER 2017

Thank you for your interest in the future of our community!

The Oglethorpe Rotary Club is joining with the Oglethorpe County Chamber of Commerce and multiple supporting organizations and businesses to initiate a Leadership Oglethorpe program. The objective of Leadership Oglethorpe is to, in a rapidly changing economic environment, increase leadership capacity in our rural county. Also, because of Oglethorpe's location and proximity to Athens, Georgia, it has become increasingly more important for the county to develop a new generation of career minded leaders who will work to build entrepreneurship, networks, and community organizations that are critical to expanding employment opportunities in the county, as well as supporting a vibrant and healthy economy and community. While agriculture is the primary economic engine in Oglethorpe County, the current leadership is focused on rebuilding the central commercial core and refocusing citizen support of businesses, that generate both retail and service income in our county. In developing this generation of new leaders, we must provide vocational and financial literacy, thus creating a team mindset, and encourage entrepreneurship in such areas as farm to table marketing in surrounding retail areas of demand. The measurable outcomes will include: enhanced community networks and improved social capital through contact with fellow program participants and program facilitators; an increased application of leadership skills and new knowledge in community nonprofit, civic and corporate sectors; and participants will understand and be more willing to undertake leadership roles in the community.

The skill and knowledge transfer will involve multiple sessions over a 40-week period. The topics will include: Socio-demographic, Understanding Values and Diversity, Communicating Effectively, Economic Development, Making Group Decisions, Elected Officials, Building Communities Through Collaborations, Volunteerism/Nonprofit, Grooming Future Leaders, Education/Youth Development, Comprehensive Plan, Local Government, Leading Community Change, Community Growth, where do we go from here. All these topics are included in the curriculum of the Fanning Institute. In addition, the participants of Oglethorpe Leadership will be networked with, and mentored by members of the local community as well as individuals from across the state who will be involved in the Fanning Institute's program. Follow up support for sustainability will be conducted in conjunction with the Fanning Institute.

We encourage you to join in this effort and commit members of your organization to this initiative and help the future leaders of our community.
